

Juvenile Life Sentencing

By: Daniel Paisano

Non-Homicidal Crimes

- Non-Homicide crimes are when a person does not commit murder but they assisted in this crime or another type of crime.

Do Juveniles deserve to be imprisoned for life in prison?

- Personally I say no they should not be imprisoned for life for non-homicidal crimes, but I'm for imprisoning them for homicidal crimes because you all should be imprisoned if you took another life.

Why not send them to prison for life.

- Personally I'm not for Juvenile Life Sentencing (JLS) because frankly it's immoral to send a child for life in prison for **non-homicidal** crimes.
- Also it may not be the good choice to let the children be even more exposed to violence because they will learn from other inmates (adults) that what they have done is wrong.

Brain development in **Juveniles**

- It's true that the brain is not developed in children but we are talking about **Juveniles** not children so at some point you should know the common sense to make the right decision in life because we all here are Juveniles and we know right from wrong.

Is therapy/counseling working?

- We never know for sure, because there are some cases where the juvenile has recovered. But there are some cases where it hasn't worked. So we never know for sure and I say it should continue, because it might work for some but not all.

Quotes from great leaders/people.

- The following is from Mark Twain:
- “The trouble ain't that there is too many fools, but that the lightning ain't distributed right.”
- “It ain't what you don't know that gets you into trouble. It's what you know for sure that just ain't so.”

Quotes from great leaders/people

- “Every man dies. Not every man really lives.” William Wallace
- “Death gives us sleep, eternal youth, and immortality.” Jean Paul Richter
- “We must not promise what we ought not, lest we be called on to perform what we cannot.” Abraham Lincoln
